General advice: Before using FungeX Multi-Purpose Nail Repair , read the instructions carefully, even if you have used this product before. The information contained in a new pack may have been revised in order to reflect the latest scientific insights and data. Nevertheless, you should use FungeX Multi-Purpose Nail Repair with care in order to obtain good results. Keep these instructions – you may need to refer to them during treatment.

Description: FungeX Multi-Purpose Nail Repair improves the appearance of yellow, damages, brown thickened nails, gel manicures, or aging. Its clear, effective formula reduces discoloration, smooths uneven surfaces, normalizes nail thickness, and hydrates nails, promoting a restored and healthier look.

Application: During the first week, apply a thin layer twice daily—once in the morning and once at night—directly onto the affected nail and under the free edge using the precision nail brush. After the first week, continue applying once daily at night until you

achieve the desired results, up to a maximum of 8 weeks. Allow a few minutes for each application to dry. Optimal results may require continued use for 3 to 6 months, depending on the severity of the condition. Allow FungeX Multi-Purpose Nail Repair to dry completely before applying nail polish. Be sure to remove any nail polish before applying FungeX Multi-Purpose Nail Repair .

Use during pregnancy and/or breastfeeding:
